CENG453 - Monopoly User Manual

Onur Gökce   Anıl Utku Ilgın

June 22, 2022

1 Getting Started

At first, the user need to be registered. If a user has not registered yet, he or she can register by clicking the register button and fill the username, password and email areas. Then the user can log in by clicking the log in button and filling the username and password areas. If the password is not correct application will show an error.

2 Game Playing for Single Player

After logging in, the user can see the leaderboard button on the main menu and by clicking it he can see the monthly and weekly leaderboards with corresponding buttons on the screen, and can go back to main menu from the back button. The user can start a game with Play Game button on the main menu. The user starts the game by rolling dice and making the move. After that, if there is a property that can be bought, there will be a question box on the screen asking whether the user wants to buy the property. If the user clicks the yes button, he buys the property. Otherwise, nothing will be happen.

- Each player starts the game with 1500 dollars.

- If a player comes to Jail, he waits for 2 turns to roll dice again.

- If a player comes the Go Jail place, he goes jail immediately and waits 2 turns as well.

- If a player rolls 6, he will roll dice again.

- If a player rolls 6 thee consecutive times, he goes jail immediately without doing last move.

- If a player comes Tax Space, he pays 50 dollars immediately.

- If a player comes a property which other player owns, he will pay %10 of its value as rent.

- If a player comes a ferry space which other player owns, he will pay 25 dollars for each of the ferries other player owns.

- If a player passes from start space, he gets 100 dollars immediately.

- If a player cannot pay tax or rent, it means bankruptcy and game will end.

- Finally, the game ends where there is a bankruptcy which is a player has no money.
